

THE GREAT african welly walk 2017

WE'RE TAKING OUR WELLIES ON A VOYAGE OF DISCOVERY AROUND AFRICA!

It's time to go exploring around Africa. What crops will we see growing? What landmarks can we discover? Which animals do we recognise? Who will we meet on the way? And how much money will we raise to help African farmers give their children the best start in life?

£50

could help provide farmers with specialised storage bags to safely keep their crops in once they have been harvested and until they are ready to be sold at market.

**YOUR
FUNDRAISING
TARGET
WELLY**

Decide your fundraising target and add it to the final welly on your map. Then work out how much each welly is 'worth'. £10? £25? £50? – and colour one in each time you raise one welly's worth of donations.

£1000

could help a group of farmers build a warehouse where they can safely store their crops and prepare them for sale.

£500

could help establish a Farmers' Group and business training so farmers can work together to sell their harvests in bulk for a higher price.

£250

could help provide farmers like Alpha's mum and dad with training, where they can learn about the best crops to grow to earn more from their land.
