

END HUNGER >>> GROW FARMING
FARM AFRICA

Asante sana – thank you – from farmers in Kenya

THANK YOU

– you're helping members of the Ebenezer Self Help Group grow a future free from hunger for their families.

A close-up photograph of a woman with a purple headwrap and a light blue and white striped shirt, smiling warmly. She is holding a young child with colorful beads in their hair. In the foreground, a metal pot sits on a traditional stone and brick stove. The background shows a rustic structure with wooden poles and a thatched roof.

Jedida is looking forward to learning new farming techniques, and having improved access to high-quality seeds.

THE STORY SO FAR

Jedida often struggles to grow enough food to feed her family. She doesn't have enough money to buy the high-quality seeds she needs to get a good harvest, so is forced to use poor-quality seeds from the local market. This means that Jedida's harvests are small at best, or even non-existent if the rains fail – as can often be the case where she lives.

Thanks to supporters like you things are about to change for Jedida's family. Farm Africa is providing farmers with high-quality seeds on a loan basis, and training in the best farming and water conservation techniques. Soon, farmers will be producing large and healthy harvests – providing them with food to feed their families, and a surplus to sell so they can buy more seeds next season.

You can see how you are helping Jedida and the rest of the Ebenezer Self Help Group to improve their lives in your regular updates, and by visiting www.farmafrica.org/SponsorKenya

You're helping to:

- Teach group members new farming and water conservation techniques that will help them harvest more from their dry land
 - Provide farmers with access to high-quality seeds, giving them the opportunity to break the cycle of poverty in which they're trapped
 - Link farmers to the best markets, so that they can get the highest possible price for their produce, increase their incomes and provide for their families
- ... and much, much more.
